

KEVIN MOLYNEAUX

Good day Randy.

Well I`ll try answering you re questions to the best of my ability. An effective partnership. Well any issues that the lake association would have I believe that if you bring them to council attention we could sit down together and come up solutions to suit everyone .My first term we met and were able to resolve the garbage pick up problem and pick up door to door in certain areas instead of those big green boxes. I`m always willing to work with are taxpayers on resolving any issues they myth have.

For the health of the lakes. This past term we also invested in the lake study .

I believe the health of are lakes and all water course is very important .

For waste management. The new garbage bins we`ve finally invested in this past year seem to be working well. There where a few tax payers that weren't happy with them but u cant please everyone the good thing is that before we use to have two full loads of garbage every week and since we`ve purchased these bins we only have one load of garbage every week know and the people are able to recycle properly . We pick up two full loads of recycling every week witch is much better for the community has well has the environment .

Has for road maintenance. I believe we`ve been lacking in this department the last few years. There is lots of roads for the summer maintenance that need to be brushed properly to improve visibility. The grader is supposed to be on a two week rotation to see that all roads get graded equally . has for winter

maintenance the guys have been doing a good job on getting the snow cleared after every storm .

For the mail in voting. I have no problem with it. The only issue I have is that it would be nice if the criteria could be changed to involve are elderly people that live with in the municipality that have difficulty to get out to vote. This issue was brought up by are dg because he said it was lots of work and that only few add used it last election. But I think that if the people are aware of this service a lot more will use it for this election.

For the study of the relocation of the library. It was a study. we add visited the idea of having all the recreation in the one location that way the school would be able too use this service because there wouldn't be any danger for the kids. We were told on different occasions that the reason the school wouldn't visit the library was because of the danger crossing the 105. But that idea has changed because we might be putting the garage next to the municipal office .

Hopefully I've answered all of you re questions properly. I m fourth generation resident in aylwin. I also have a young family. Two daughters. my oldest is 6 and my youngest is gona be 2 in February. I take pride in my community and want whats best for it and its residents and taxpayers with in it . If u have any other question.

Feel free to contact me on my cell 819 790 0476 or by email .tks
