

MICHEL COLLIN

After we have met , i figured i could answer the questions in this E-mail, and send it back to you . So number 1 (do i support the LAK) .Yes ,60%of our budget money comes from the cottages , i would recommend a Councillor participate as a go between to accelerate the transfer of info or request, even i would be glad ,if invited , to site down because i am interested to know what is impotent for you .Number 2 (financial support) . I have push forward and got \$5000.00 , two years in a row for the LAK study on the health of the lakes and i would support getting help to fix any problems occurring in the future ,again the financial contribution from the cottages is essential for the survival of Kazabazua . Number 3 (waste management) Since we are taking care of are waste , the telephone complaints have stop . But i am for any method to reduce the wast tonnage a tonne of garbage is costing \$150.00 to the tax payers but a tonne of recycle is\$30.00 a saving of \$120.00 per tonne one more reason to recycle. Number 4(road maintenance) We are getting lost of compliments about are road, even from other municipality but there always room for improvement. Number 5 (mail-in vote) . Even in i voted against i am willing to site down with LAK and decide for the future looking at the response, the cost , the impact on the election result and other , again i am there to serve not to boos people around . Number 6 (library)I declared in the french paper that i was definitely opposed to moving the library,. The problem is a lack of space , so the solution would be to expand the municipal office and after the building of the garage behind the office it obvious to leave the office were it is . So these are my answers now for some of my ideas : Make are community center attractive and functional by expanding and installing new bathrooms, new floor, new bar area. Recognizing the good work of are volunteers , by having a night Meritas . Meting once a year the local businesses to exchange ideas and info and may be start a local Chamber of Commerce. Making a nuisance law that would improve the appearance of our municipality and especially the main street which is the 105. Expanding the cranberry festival to incorporate other growers . Having a boat ramp on the river not on our lake . Expanding our play ground . Administration wise , preparing for the replacement of our DG in 5 years who will retire by having a DG assistant that would be able to take is place when the time comes . But my first duty is to renegotiate are DG`s contract to have him working a minimum of 5 days a week instead of 4 . All of that with no tax increase. Thanks Michel Collin
