

OTA HORA

1. Do you support continuing collaboration with the Lakes Association of Kazabazua (LAK)?

Absolutely!

2. Would you be prepared to recommend to council that financial support for the LAK in lakes' health research be provided when necessary?

Essential studies must be supported by council.

3. Would you be prepared to cooperate with LAK in finding solutions to waste management concerns?

Yes. I propose a separate committee—joint council and LAK. LAK has specific situations and concerns.

4. Would you be prepared to address LAK concerns with road maintenance?

Yes. This could be part of the waste management committee (above).

5. Do you support retaining the mail-in vote for seasonal residents in municipal elections?

Yes. The ability to vote is an essential element of a democratic community.

6. The library is a very important resource for all residents. Are you prepared to consult with the LAK prior to taking any decision on relocating the library?

Yes. I agree on its importance. In 2014 the current council hired a full-time librarian. Twelve years ago I was one of the councilors who supported moving the library out of the basement of the municipal office. The current (in-house) study showed that

relocating the current library was impractical. The only move of the current library that I could support would be to a totally new structure adjacent to a new City Hall.

Yes, I would consult with LAK prior to any decision on relocating the library
