

Good day Mr. Prime.

As requested, here are my answers to the Lakes Association questionnaire.

1. Yes I am, preservation and protection of our lakes is a very important issue.

2. Absolutely, as I have done so during my last mandate on counsel.

3.1 Yes I do commit to consulting with them given that I am made aware of such issues.

3.2 & 3.3 The SQ is responsible for enforcing the municipal by-laws that are the same throughout all of our MRC. Unfortunately, the SQ nor the municipality have any say over events held on private land. Although I feel that counsel could have made an effort to meet with the organisers of such events, so that existing by-laws are respected.

4.1 Yes I will.

4.2 As a counsel we have to follow all protocols and the proper procedures pertaining to this issue.

5.1 High speed internet is a great tool and would be a great advantage to all who live in Kazabazua. As a councillor, I look forward to working for the people in our community.

Sincerely Kevin Molyneaux

Seat # 4.
